## Our Promise to Your Projects

### UV20-RATED DURABILITY

Tested to endure 20,000 hours of direct sunlight and withstand the damaging effects of pool chemicals, chlorine, sand and saltwater for 10+ years of fade resistance.

### POOL-READY VERSATILITY

Flexibility is key in outdoor environments, so many of our items can be used in-pool or on-deck.

### COMMERCIAL-GRADE QUALITY

Our furniture can be seen in the most high-end resorts around the world. That's because we only use materials suitable for commercial environments.

### UNIVERSAL COMPATIBILITY

From the grittiest of gunite to the most decorative of fiberglass, vinyl or concrete — all pools are safe and compatible.

### AMERICAN-MADE CRAFTSMANSHIP

Ledge products have supported thousands of American workers and their families for nearly fifteen years.

### WEATHER-RESISTANT DESIGN

Made of solid, sturdy materials that withstand the sun, wind and the harshest elements of any outdoor environment.

### CUSTOM COLOR COORDINATION

All of our products come standard in matching colors for a stylish scene. Select accessories may be customized with unique fabric, color, embroidery and engraving options.

All pricing, specs and availability are subject to change.  
Speak with your sales representative for the most up-to-date information.

## The Expert Design Team At Ledge

## TRADITIONAL UMBRELLA COMPATIBILITY MATRIX

Pairing an umbrella with a side table or base that best suits your space is a breeze.

- **1.5" / 38MM REDUCER NEEDED:** Indicates the umbrella/table pairing is recommended with a pole reducer to reduce the likelihood of wiggling within the space between the pole and the umbrella hole of the table. 1.5" poles in Signature Side Tables are recommended with this reducer.
- ★ **2" / 50MM ADAPTER NEEDED:** Indicates the base is required with a pole adapter. 2" poles in a typical 1.5" in-ground pool sleeve are recommended with this reducer.
- ◇ **SPECIALTY REDUCER:** Indicates the base can completely support the umbrella, but has an optional specialty reducer to reduce the likelihood of wiggling within the space between the pole and the umbrella hole of the base. The specialty reducer is not required.
- ▲ **FREE-STANDING (WITH BASE SUPPORT):** Indicates the base is recommended as a free-standing option. 18" stems should always be used when in this application.
- **WORKS WITH BASE & DINING TABLE:** Indicates the base is a suitable size for use beneath a table when combined with a base. Ledge Lounger Mainstay Dining Tables can accommodate these base and umbrella pairings. 8" stems should always be used when in this application.
- ✕ **NOT COMPATIBLE**
